

Grade 34 Newsletter

April 5th, 2017

Hello and Happy Spring!

Did you know...April is Mathematics Awareness Month??!!

We will continue to practice our numeracy skills and strategies daily as we: work to complete Unit 5: Fractions (Gr.3), Fractions and Decimals (Gr.4), play math games, solve word problems and try to improve our Xtramath scores.

In Language Arts we are practicing and performing **Reader's Theatre**. It is a great way to work on expression, fluency, pace and listening skills!! We have also started reading [Ticket to Curlew](#) as a class novel study.

In Science, we are discussing and exploring **LIGHT AND SHADOWS** (Gr. 4) as well as **HEARING AND SOUND** (Gr.3). An exciting part of these units is discovering the many Bible verses that use these concepts to teach us about God and His Creation!

We are planning for our trip to Kisipatnahk School – look for [Field Trip Forms](#) coming home soon!

The Marketplace is quickly approaching. For more information visit the [Marketplace Facebook](#) page and don't forget to sign up to [volunteer](#).

Blessings,
Jennifer
