

Grade 4 JUNE Newsletter

Dear Parents,

Wow, I can't believe that it's already June; how time flies! I would like to take the time to thank all of you for your support, prayers and kind words this school year. It is such a blessing to have parents that care and do everything in their power to help their child succeed. The help that you have given at home, to your child, has not gone unnoticed and I am so grateful for that support. You have been a fantastic group of parents and I appreciate each one of you!

As the end of the year approaches please ensure that your child is continuing to do homework at home. It is very important that assignments be handed in on time since marks need to be in for report cards. Thank you for your help with this!

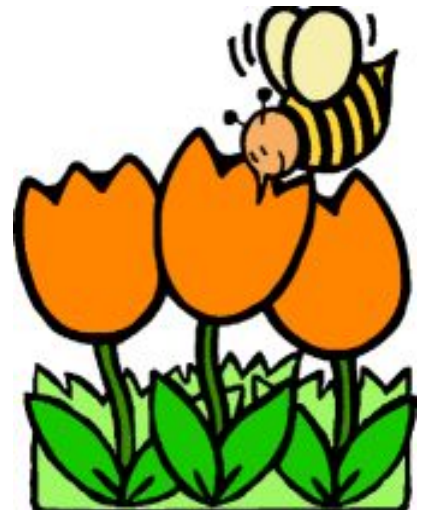

Our final unit of Science is here! "Plant Growth and Change" is the perfect unit for spring as students can see real examples of the budding leaves and growing shoots. God has given us a beautiful world created in such a way that it meets all our needs. He created a variety of plant life which humans can use for food, shelter and enjoyment. This complexity and diversity is reflected in the interdependence of plant parts, and the relationship that plants have with their specific environments. Our Creator has such a wonderful imagination. We will be heading out to the Muttart Conservatory June 22 to enjoy and learn about many varieties of plants and their environments. We will also have a unit quiz June 20.

We have already planted one raised garden bed with raspberries and the other with an assortment of student chosen green beans, flowers and some pumpkin seeds in the other raised garden bed. The students have been overjoyed to help plant and tend to our grade 4 garden beds as well as help water the other plants outside on occasion. If your family would like to help tend the gardens this summer, please contact the office as soon as possible to see what weeks are still available!

Our final unit in math is "Multiplying and Dividing Larger Numbers". Students are learning a variety of strategies to assist them in solving problems involving multiplication and division. Please continue to work on basic facts up to 9×9 at home. Our math test will happen June 13.

Thank you so much to all of you for all of your support over this entire year. I really feel blessed to be a part of Covenant Christian School. Have a wonderful and safe summer and enjoy time spent outdoors with family and friends! God bless!

Yours in Christ,

******IMPORTANT REMINDERS******

FIELDTRIPS:

June 5 - "Peter Puffin's Whale Tales" at the MacLab Theatre
June 22 - Muttart Conservatory "Budding Botanists" & Mill Creek Ravine Nature Walk
(& Picnic)*

*Please stay tuned for more information to come!

CLASS PHOTOS - June 2

CCS EVENTS

EARLY DISMISSAL - June 7
TALENT SHOW - June 19 If you wish to enter, please inform Ms. Schultz of what
you will be sharing with the school!
FIELD DAY - June 21 - School Wide outdoor activities

REPORT CARDS: Distributed June 28th

Family Picnic: CCS is holding another family picnic on June 28th -last day of classes. Bring a picnic lunch (or order pizza through the school), for you and your family, and enjoy a community-building event that is sure to be remembered. Students are welcome to go home with their parents after the picnic or stay until the end of the day. If you are unable to make it to the picnic, but want your child to go home with another family please be sure to contact me by email to let me know of any alternate transportation arrangements.
