

**Bible** Christmas is the celebration of the amazing reality that God is with us. Our new unit, Jesus Teaches, will explore who Jesus is and examine His ministry and what He taught us about the Kingdom of Heaven through parables.

**Memory Verses:** 1 Samuel 16:7b and John 10: 14-16

**Language Arts** Home. What does it mean? Is it the building we live in? The people we live with? In this unit we will explore the meaning of home, culminating in a writing assignment with submissions to the Habitat for Humanity/<https://meaningofhome.ca/> contest.

**Math** We are continuing our unit: Fractions, Ratios, and Percents. The unit test is scheduled for Thursday, January 21. *A solid knowledge of number facts is critical* so we will continue to have frequent mini-quizzes. Students also have access to XtraMath (online), which provides excellent practice.

**Science** Now that we are back in class the students will be able to do some hands on learning in Science. They will be constructing some objects that fly, float and glide - and will learn how to think like a Scientist!

**Social Studies** We will examine Local Government in Chapter 5, including the making of Bylaws! We will also continue to explore, discuss, and respond in writing to current events

### *Getting Ready for Junious High!*

One of our goals this year is to prepare the students for the demands of Junious High. We will be creating projects and assignments that will challenge them to “dig deeper” and to develop the skills they will need in the years to come. They will have many opportunities to show their understanding and share their learning with others.

*We pray that 2021 will be a great year for all our 6VL families and that the year ahead will provide many opportunities to experience and share the love of God!*

*Blessings,*

*Charlene Van de Kraats & Jennifer Lozeau*
