

Grade 1G News

March

Learning Focus

LA— We are going to discover how sounds are used to read longer words. We will also continue our writing unit and talking about the different things that make great writers. We are working on making our writing more interesting by adding details and creating plans to help us write! We will also begin our unit on Non-Fiction writing and researching different animals in God's creation. Please continue practice your heart words at home. The more practice we have with them the more familiar they become!

Heart Words: the, I, a, said, to, do, of, see, he, be, me, from, look, book, are, was, you, what, have, your, want, go, no, so, goes, says, she, we, they, their, were, talk, walk, could, would, should, or, for, there, where, who, by, my, one, once, two, does, many, any, been, into, friend, because, pretty, nothing, people, other, another, mother, brother, today, very

MATH— We are going to continue to use our strategies we have learned to explore bigger numbers and patterns in our unit of Addition to 20 and be order discoverers!

Exploration— Science— We will be participating in a virtual program from March 12-15 with the Telus World of Science called "Coding in Nature".

Social— We are looking more at our communities, different types of communities, and how we are all important parts of our community!

Bible— We have been looking at the miracles of Jesus and we are also going to learn more about Easter and creating "Resurrection Eggs" that the students will be able to bring home before Spring Break!

Important Dates

Library— Wednesday's
Celebration— Thursday's (You are welcome to come and join)
See the Calendar attached for all the special days in March!

A Note from Mrs. Glesman

Thank you for continuing to practice the sounds and heart words at home! The more practice helps significantly with your child's understanding!

Continue to practice home reading at home as well. Reread sentences for fluency and point out the patterns that are in the books for more recognition for your child!

We have the opportunity to participate in a virtual program that is offered by the Telus World of Science this month called "Coding in Nature". We will be joining virtually here at school and doing different activities as a class as a part of the program!

The grade ones will also get to attend a special dress rehearsal of the Aladdin play in the afternoon of Tuesday, March 19th! The grade 8's have been working hard on the play for this year and I am excited to be able to bring our students to celebrate their hard work!

Have a great rest of the month! Keep shining your light!
