

Dear Parents,

Reminders:

- Grade Nine Fundraiser - Movie Night at CCS -see email re: tickets
- Royal Alberta Museum-Field Trip- Thursday **April 18**, 2024 - see attached letter for more information.
- PD Day - No School on April 19th
- Auction Fundraiser - April 27, 2024 (See [Chronicle](#) for more info)

English Language Arts (ELA)

- Students will continue to receive spelling words in their agenda and will be posted on Google Classroom.
- We are currently examining how the form and structure of texts can support the communication of ideas and information for a variety of purposes, including to inform, persuade, and provide enjoyment. This includes looking at the genre of different texts and understanding that narrative texts can be fiction or nonfiction and follow a particular structure.
- Students are encouraged to read at home and practice spelling words daily.
- Library is on Fridays.

Art

- As the weather warms up, the plan is to spend some time enjoying God's creation while we further develop skills in Art.

Math

- Our next unit in math is ***Multiplication***. This unit helps students develop mental and written strategies for whole number multiplication including:
 - Multiplying 2 and 3 digit numbers by 1 digit numbers.
 - Multiplying whole numbers by the power of ten.
 - The standard algorithm for multiplication and,
 - Using multiplication techniques to solve word problems.

Bible

- Our current unit is a **Review from Creation through Joshua**: The lives of Old Testament people show how God revealed Himself to them and led them into a relationship of love and obedience to Him. We can learn many lessons from their lives on being Faithful Followers!

Memory Verse: Hebrews 11: 1-3

Social Studies (SS)

- This month we will begin a project called **My Alberta Story**. This project will give students an opportunity to learn more about their own family history and God's faithfulness through the years. There will be interview questions coming home soon.

Science

- We are beginning our newest unit, **Waste in God's World**. This unit aims to empower students with the knowledge and skills to make informed choices about waste management, promote environmental sustainability, and take care of God's world by finding ways to contribute to creating a cleaner and healthier planet.

As always, if you have any questions or concerns, please contact us by email.

Jennifer and Charlene

Our grade four class will be going to the **Royal Alberta Museum in Edmonton on Thursday, April 18th at 9:00am**. This trip aligns with our Social Studies curriculum and gives us an opportunity to learn more about our province including the six Alberta Regions that we have been learning about in class.

We will leave Covenant at 9:00 am and return by 3:00 pm. The students will need to bring a non-microwaveable snack and lunch.

This trip will also include a scavenger hunt. Students will look throughout the museum for information that will help them gain a deeper understanding of the history, stories and cultures of the people that make up our province.

To those who have volunteered to be team leaders...

You will receive more info about your responsibilities soon.

Thank you,

Jennifer
